Hi Fred,

What are the options available? We obviously don't want to post anything misleading or something that will put us in a difficult position down the line.

Peer Review Agenda in the Science Inventory

According to Virginia Houk, who confirmed with a Science Inventory expert in RTP, we must include a "Project Completion Date (Projected)" -- i.e., we cannot use "TBD" or leave the field blank. The same is true for the field that requires a date for "Peer Review Expected to Begin."

The Peer Review Plan currently states that the "Project Completion Date (Projected)" is 1/31/13, and the "Peer Review Expected to Begin" is 3rd Quarter, FY2012.

Fred S. Hauchman, Ph.D. Director, Office of Science Policy Office of Research and Development
